## EDUCATION

---

Swami Vivekananda Subharti University, Meerut  
B. Tech (2019-2023)  
Concentration: Computer Science and Engineering  
GPA: **8.5/10.00**

## EXPERIENCE

---

### **Techwarezen pvt Lmt, Noida**

**Backend Developer**, 29 Jan 2023 - 28 Feb 2024

- I am working with Java, PHP, and MySQL to develop holistic solutions for various projects. Furthermore, I've smoothly integrated APIs into both PHP and Java, creating high-quality web applications with Spring-Boot as the backend.
- Creating new features, functionality and capabilities on the game-websites using HTML, CSS and PHP.
- I have incorporated numerous third-party APIs into the news web application.

## PROJECT

---

### **Admin Dashboard – Disawar, Sg-Kalyan**

- Developed an admin dashboard using PHP, HTML, CSS, and Bootstrap, ensuring a responsive and user-friendly interface.
- Integrated database functionality to store and manage essential data, providing a robust backend infrastructure.
- Seamlessly incorporated APIs to enhance functionality and enable efficient communication with external services, expanding the dashboard's capabilities.

### **Webapp – Sg-Kalyan, Disawar**

- Enhanced the dashboard's features by implementing new functionalities and refining existing ones based on user feedback and project requirements.
- Optimized database integration to improve performance and scalability, ensuring seamless data retrieval and management for a smoother user experience.

### **Hostel Management System**

- Enhanced the dashboard's features by implementing new functionalities and refining existing ones based on user feedback and project requirements.
- Optimized database integration to improve performance and scalability, ensuring seamless data retrieval and management for a smoother user experience.
- Seamlessly incorporated APIs to enhance functionality and enable efficient communication with external services, expanding the dashboard's capabilities.

## SKILLS

---

**Backend:** Java, Php, JavaScript, Spring Boot, MySQL

**Frontend:** HTML5, CSS, Bootstrap

**Tools:** VSCODE, STS, ECLIPS
